

Impressed By Public Works

To the editor:

My wife Deb and I would like to say thank you to Johnny Lambert, director of public utilities, and the entire group of Davie County Public Utilities employees who worked on the county water main break on our property last week.

At about 4:45 p.m. last Wednesday, the Davie County main water line ruptured in our front yard. It instantly created a mess and a hazard both in our yard and in the street. We called the Davie Public Utilities office just as the office closed. Within a few minutes they were on site. A crew of about eight people worked into the evening to shut off the water flow (to a number of houses), dig a large hole, locate the breakage, repair the break, and restore water service to the neighborhood. They worked well into the night and finished the job about 11 p.m.

Mr. Lambert and the whole public utilities group could not have been more professional. We don't think about the public utilities folks until we need them, and we would like to say thank you.
