

## Viewing Property Cards in Go Maps

### Google Chrome

You may see this message when trying to view the property card:

**Your connection is not private**

Attackers might be trying to steal your information from **maps.daviecountync.gov** (for example, passwords, messages, or credit cards). NET::ERR\_CERT\_COMMON\_NAME\_INVALID

Automatically report details of possible security incidents to Google. [Privacy policy](#)

ADVANCED Back to safety

Click on “**ADVANCED**” and then “**Proceed to maps.daviecountync.gov (unsafe)**” to view the property card.

**Your connection is not private**

Attackers might be trying to steal your information from **maps.daviecountync.gov** (for example, passwords, messages, or credit cards). NET::ERR\_CERT\_COMMON\_NAME\_INVALID

Automatically report details of possible security incidents to Google. [Privacy policy](#)

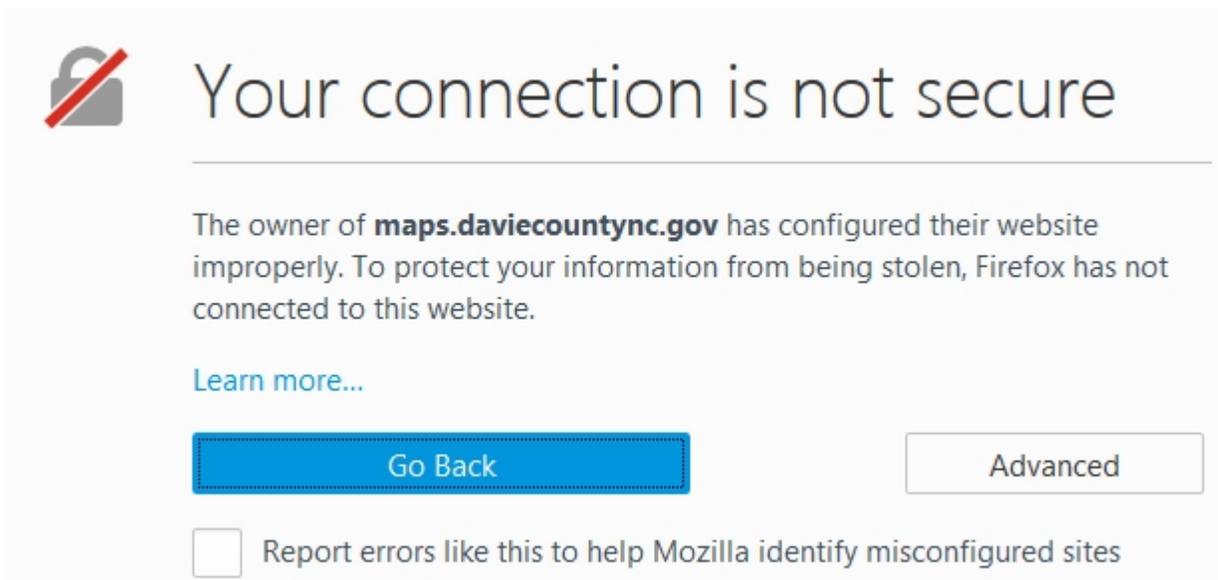

HIDE ADVANCED Back to safety

This server could not prove that it is **maps.daviecountync.gov**; its security certificate is from **maps.co.davie.nc.us**. This may be caused by a misconfiguration or an attacker intercepting your connection. [Learn more](#).

[Proceed to maps.daviecountync.gov \(unsafe\)](#)

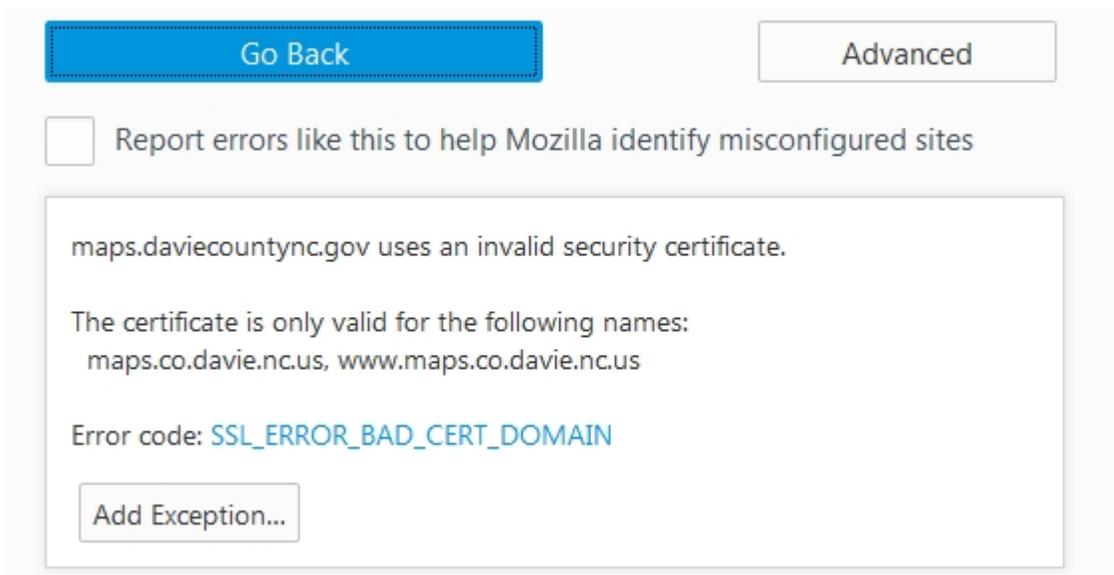

## Firefox

You may see this message when trying to view the property card:

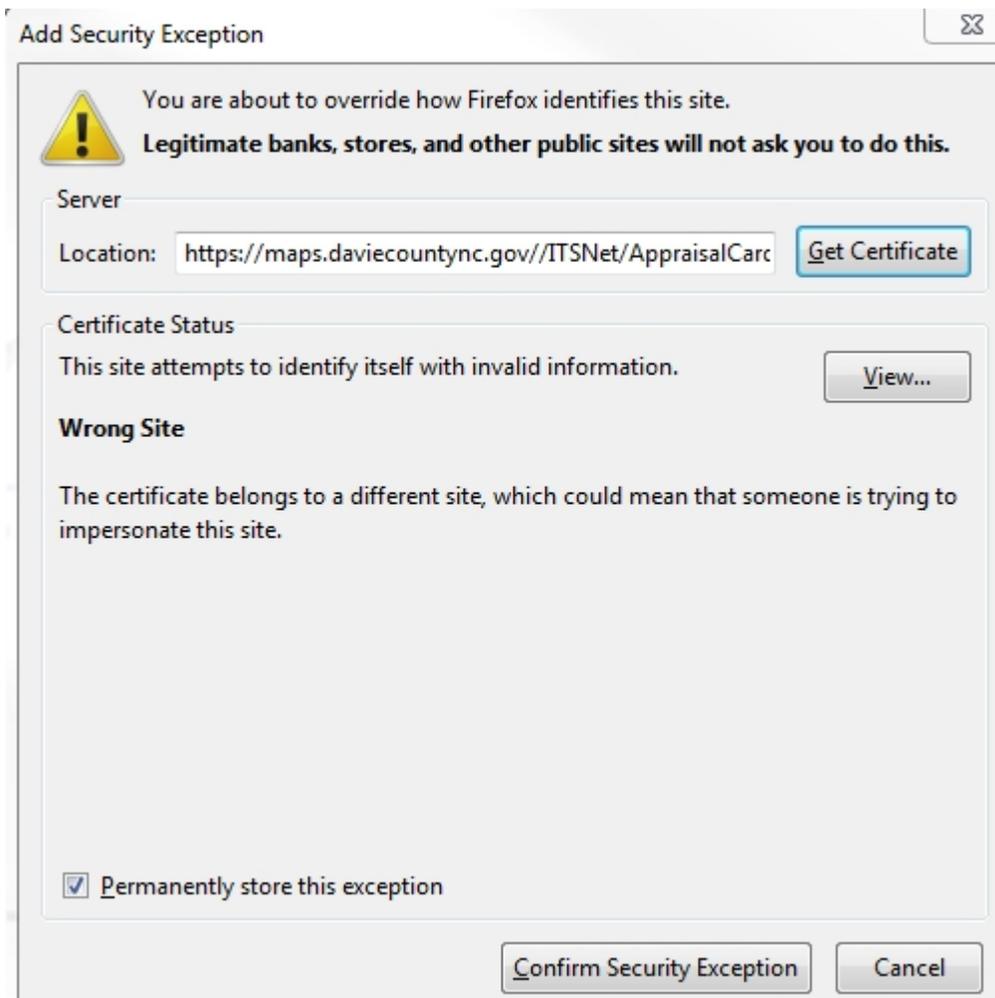

The screenshot shows a Firefox security warning. On the left is a lock icon with a red diagonal slash. To its right is the heading "Your connection is not secure". Below this is a paragraph explaining that the owner of **maps.daviecountync.gov** has configured the website improperly and that Firefox has not connected to it. A link "Learn more..." is provided. At the bottom, there are two buttons: "Go Back" (highlighted in blue) and "Advanced". Below the buttons is a checkbox labeled "Report errors like this to help Mozilla identify misconfigured sites".

Click on “**Advanced**” and “**Add Exception**”

This screenshot shows the "Advanced" section of the security warning. It features two buttons at the top: "Go Back" (highlighted in blue) and "Advanced". Below the buttons is a checkbox labeled "Report errors like this to help Mozilla identify misconfigured sites". A large white box contains the following text: "maps.daviecountync.gov uses an invalid security certificate.", "The certificate is only valid for the following names:", "maps.co.davie.nc.us, www.maps.co.davie.nc.us", and "Error code: [SSL\\_ERROR\\_BAD\\_CERT\\_DOMAIN](#)". At the bottom of this box is a button labeled "Add Exception...".

Select **“Confirm Security Exception”**

The property card should now display correctly.
