2022 North Carolina Development Tier Designations

Raleigh, N.C. – Since 2007, North Carolina has used a three-level system for designating county development tiers. The designations, which are mandated by state law, determine a variety of state funding opportunities to assist in economic development. This report documents the process for calculating tiers and lists counties that have changed tiers since 2021. A statewide county tier map and tier calculations are included for reference.

How Tier Rankings Are Calculated

The Development Tier Designation statute ([§143B-437.08](#)) provides specific guidelines for calculating annual tier rankings. This process assigns each county to a designation of Tier One (most distressed), Tier Two, or Tier Three (least distressed). Assuming no ties in rankings, the statute requires **40 Tier One, 40 Tier Two, and 20 Tier Three** counties each year. In the event of a tie for the final position as a Tier One or Tier Two county, both counties will be placed in the lower tier.

Tier Rankings use Four Factors

- **Average unemployment rate** for the most recent twelve months for which data are available (October 2020 – September 2021, NC Dept. of Commerce, LAUS)
- **Median household income** for the most recent twelve months for which data are available (2019, U.S. Census, Small Area Income & Poverty Estimates)
- **Percentage growth in population** for the most recent 36 months for which data are available (July 2017 – July 2020, NC Office of State Budget & Management)
- **Adjusted property tax base per capita** for the most recent taxable year (FY 2021-22, NC Dept. of Public Instruction)

Each county is ranked from 1 to 100 on each variable, making the highest possible *County Rank Sum* 400, and the lowest 4. After calculating the *County Rank Sum*, counties are then ranked from most distressed (1) to least distressed (100) in order to determine their *Economic Distress Rank*. Note that the 2018 Appropriations Act ([S.L. 2018-5](#), Section 15.2.(a)) eliminated several “adjustment factors” that will no longer be used to calculate the final tier ranks, adjustments that previously factored small population sizes and poverty rates into the calculations. In

addition, [§143B-437.07.\(d\)](#) calls for the Department of Commerce to publish the state performance statistic for each of the four factors, alongside the county values. Any county underperforming the state average on any of the four factors may request assistance from the Department to improve their performance on the given factor. A ranked list of each county's performance by indicator, as well as the statewide value, is provided at the end of this document. For comparison, counties may also wish to access the [2021 County Tier Designations](#). For assistance, please contact David Rhoades at drhoades@nccommerce.com.

County Tier Changes in 2022

Eleven counties will change tiers in 2022. Counties moving to a **less distressed** tier include Alexander, Brunswick, Buncombe, New Hanover, Randolph, and Rowan. Counties moving to a **more distressed** tier include Chowan, Jones, Macon, Polk, and Watauga.

Alexander County

For 2022, Alexander County is shifting from Tier One to Tier Two. The county's economic distress rank is #53 (it was #29 in 2021). This shift was largely driven by a change in the county's unemployment rate rank, which moved from #34 last year to #85 this year.

Brunswick County

For 2022, Brunswick County is shifting from Tier Two to Tier Three. The county's economic distress rank is #81 (it was #80 in 2021). This shift was largely driven by a change in the county's unemployment rate rank, which moved from #11 last year to #21 this year.

Buncombe County

For 2022, Buncombe County is shifting from Tier Two to Tier Three. The county's economic distress rank is #83 (it was #67 in 2021). This shift was largely driven by a change in the county's unemployment rate rank, which moved from #23 last year to #65 this year.

Chowan County

For 2022, Chowan County is shifting from Tier Two to Tier One. The county's economic distress rank is #33 (it was #43 in 2021). This shift was mostly driven by a change in the county's unemployment rate rank, which moved from #84 last year to #47 this year.

Jones County

For 2022, Jones County is shifting from Tier Two to Tier One. The county's economic distress rank is #34 (it was #46 in 2021). This shift was largely driven by a change in the county's unemployment rate rank, which moved from #93 last year to #84 this year.

Macon County

For 2022, Macon County is shifting from Tier Three to Tier Two. The county's economic distress rank is #80 (it was #84 in 2021). This shift was largely driven by a change in the county's median household income rank, which moved from #49 last year to #35 this year.

New Hanover County

For 2022, New Hanover County is shifting from Tier Two to Tier Three. The county's economic distress rank is #82 (it was #79 in 2021). This shift was largely driven by a change in the county's unemployment rate rank, which moved from #49 last year to #72 this year.

Polk County

For 2022, Polk County is shifting from Tier Three to Tier Two. The county's economic distress rank is #65 (it was #84 in 2021). Compared to last year, the county's population growth rate rank and unemployment rate rank both worsened.

Randolph County

For 2022, Randolph County is shifting from Tier One to Tier Two. The county's economic distress rank is #42 (it was #35 in 2021). This shift was mostly driven by a change in the county's population growth rate rank, which moved from #40 last year to #60 this year.

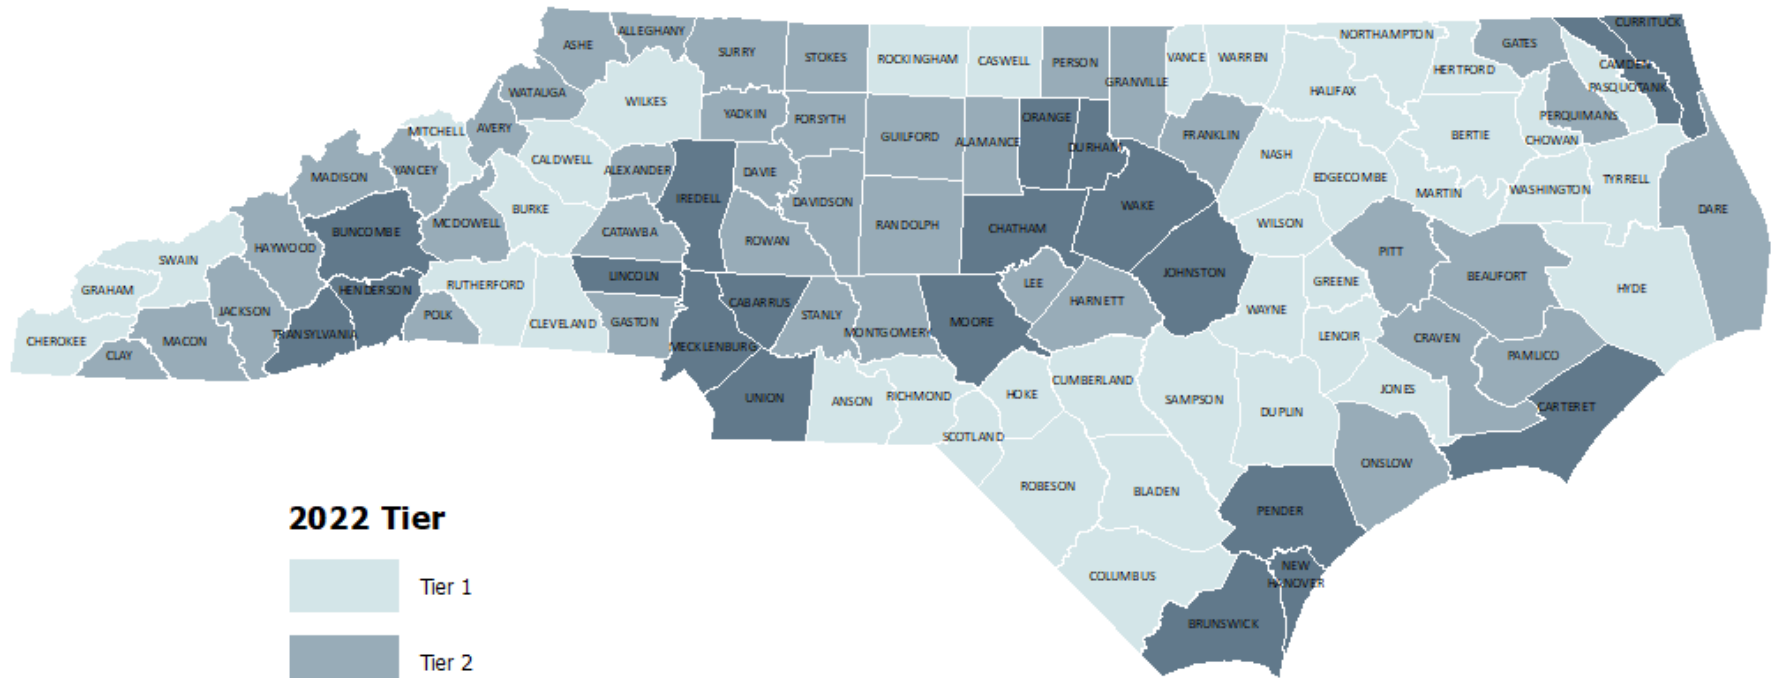

Rowan County

For 2022, Rowan County is shifting from Tier One to Tier Two. The county's economic distress rank is #55 (it was #38 in 2021). Compared to last year, the county's population growth rate rank and unemployment rate rank both improved.

Watauga County

For 2022, Watauga County is shifting from Tier Three to Tier Two. The county's economic distress rank is #79 (it was #91 in 2021). This shift was largely driven by a change in the county's population growth rate rank, which moved from #75 last year to #44 this year.
