Phone Number: 336-753-6090

Permit Number: WQCS00106
Description of System: Gravity, Force mains, Submersible
Pump stations

Performance:

Summary of System Performance;

2013 was productive years for Davie County we have completed all integration of all pump stations to SCADA. We completed two major upgrades to our Yadkin River lift station that moves waste water over to Forsyth County Utilities. Smith Creek lift station was also completely upgraded. Added 15,000 ft of gravity sewer line to serve Wake Forest Baptist Health center and making sewer available to the north side of I-40.

Notification:

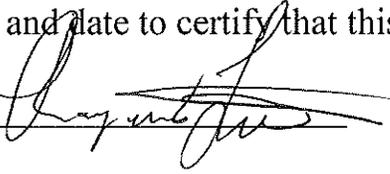

Each customer will receive a notice in the bi-monthly water bills, stating when the report will be listed in the local newspaper, online and also available in our office. Davie County operates a government access channel to help with notification to our customers. This also provides great information that runs on a loop for FOG (Fats Oils and Grease).

We are excited to bring this 2013 system annual performance report to you and look forward to making 2014 an even better year in the performance of our system.
