| Renovation on Original Building to Real Estate Office Space   | Remodel           |                      |                | 2000              | 150000            |
| T-Mobile # 5WS0349A new equipment installation (new colocation) on existing Crown Castle wireless tower. Tower/Ground/Electrical work part of SOW as detailed in provided construction Plans. This project does NOT require the existing tower's height to be extended, nor does it require the existing tower compound/lease area to be expanded - all equipment will be installed inside the existing fenced compound. (Crown Castle ID: 840620_647240) |                   |                      |                |                   |                   |
|   | Addition          | IIB                  | U              | 150               | 28465             |
