

Viewing Property Cards in ROKMAPS

Google Chrome

You may see this message when trying to view the property card:

Your connection is not private

Attackers might be trying to steal your information from **maps.daviecountync.gov** (for example, passwords, messages, or credit cards). NET::ERR_CERT_COMMON_NAME_INVALID

Automatically report details of possible security incidents to Google. [Privacy policy](#)

ADVANCED Back to safety

Click on “**ADVANCED**” and then “**Proceed to maps.daviecountync.gov (unsafe)**” to view the property card.

Your connection is not private

Attackers might be trying to steal your information from **maps.daviecountync.gov** (for example, passwords, messages, or credit cards). NET::ERR_CERT_COMMON_NAME_INVALID

Automatically report details of possible security incidents to Google. [Privacy policy](#)

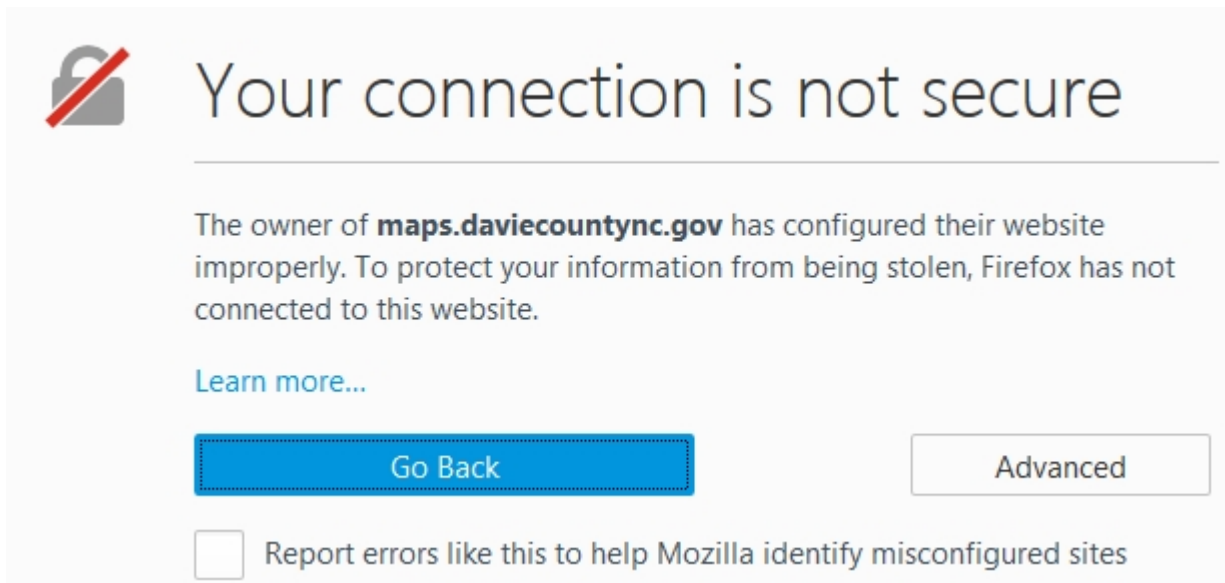

HIDE ADVANCED Back to safety

This server could not prove that it is **maps.daviecountync.gov**; its security certificate is from **maps.co.davie.nc.us**. This may be caused by a misconfiguration or an attacker intercepting your connection. [Learn more](#).

[Proceed to maps.daviecountync.gov \(unsafe\)](#)

Firefox

You may see this message when trying to view the property card:

The image shows a Firefox security warning message. On the left is a padlock icon with a red diagonal line through it. To its right is the heading "Your connection is not secure". Below this is a paragraph explaining that the owner of maps.daviecountync.gov has configured the website improperly, so Firefox cannot connect. There is a "Learn more..." link. At the bottom are two buttons: "Go Back" (highlighted in blue) and "Advanced". Below the buttons is a checkbox for reporting errors to Mozilla.

 Your connection is not secure

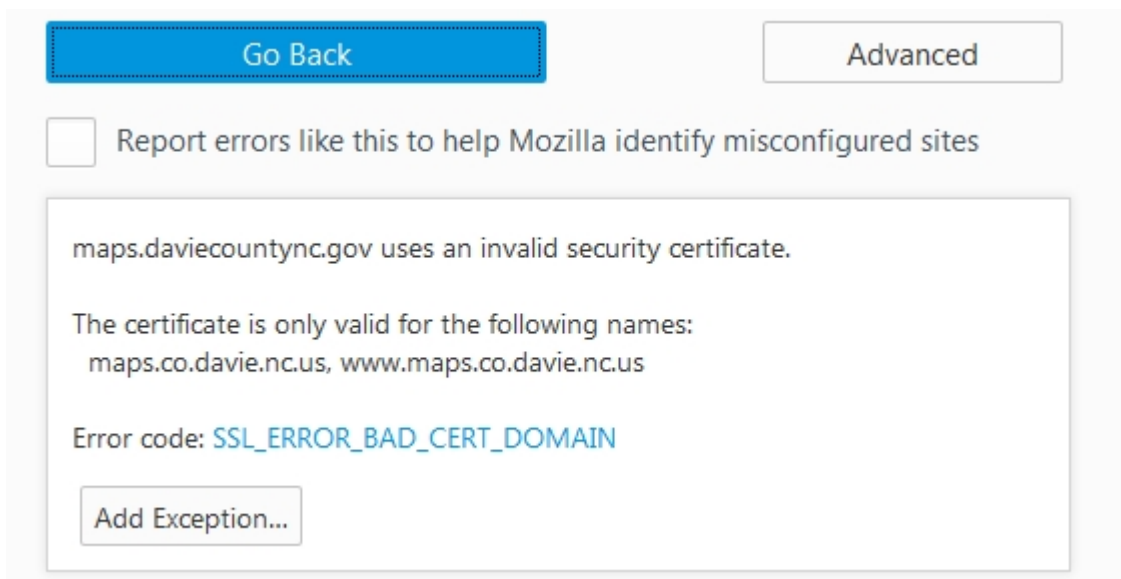

The owner of **maps.daviecountync.gov** has configured their website improperly. To protect your information from being stolen, Firefox has not connected to this website.

Report errors like this to help Mozilla identify misconfigured sites

Click on “**Advanced**” and “**Add Exception**”

The image shows the "Advanced" view of the security warning. It features a "Go Back" button (highlighted in blue) and an "Advanced" button. Below these is a checkbox for reporting errors. A large white box contains the following text: "maps.daviecountync.gov uses an invalid security certificate. The certificate is only valid for the following names: maps.co.davie.nc.us, www.maps.co.davie.nc.us Error code: SSL_ERROR_BAD_CERT_DOMAIN". At the bottom of this box is an "Add Exception..." button.

[Go Back](#) [Advanced](#)

Report errors like this to help Mozilla identify misconfigured sites

maps.daviecountync.gov uses an invalid security certificate.

The certificate is only valid for the following names:
maps.co.davie.nc.us, www.maps.co.davie.nc.us

Error code: [SSL_ERROR_BAD_CERT_DOMAIN](#)

[Add Exception...](#)

Select “**Confirm Security Exception**”

Add Security Exception

 You are about to override how Firefox identifies this site.
Legitimate banks, stores, and other public sites will not ask you to do this.

Server

Location: [Get Certificate](#)

Certificate Status

This site attempts to identify itself with invalid information. [View...](#)

Wrong Site

The certificate belongs to a different site, which could mean that someone is trying to impersonate this site.

[P](#)ermanently store this exception

[C](#)onfirm Security Exception [C](#)ancel

The property card should now display correctly.
